Reverberation robust speech recognition by matching spectrally and temporally decorrelated features

Kalle Palomäki and Heikki Kallasjoki
Dept. of Signal Processing and Acoustics
Aalto University, Finland

All results with:
- Full batch processing
- Clean training
- Single channel

Code available:
http://users.spa.aalto.fi/kpalomak/

Results without adaptation

Results with adaptation

Channel by channel Distribution Mapping

Examples from 2nd PCA coeff

Effects of parameters
